

HANDBOOK TO COMPILE A REQUEST FOR GRANT

WALDENSIAN CHURCH – Union of the Methodist and Waldensian
Churches
OTTO PER MILLE OFFICE - VIA FIRENZE 38, 00184 - ROME

INTRODUCTION

The purpose of this guide is to help applicants better understand the key information required for each area of the Project section of a grant application, through clarifications and examples.

The guide does not provide technical guidance on how to use the Juno IT platform, nor does it deal with the eligibility criteria and application procedures for participating in the Waldensian Church (Union of Methodist and Waldensian Churches) Otto per Mille call for proposals. Detailed information in this regard can be found respectively in the documents *General instructions on the Use of the Juno Platform* and *Funding Application Guidelines 2026*, which users are strongly recommended to read carefully at the following: link <https://www.ottopermillevaldese.org/english-version/> .

Throughout this guide, a screenshot for each of the pages of the on-line proposal form consists of may be found. Each screenshot outlines which kind of data and contents the user needs to provide in the different fields and gives illustrative examples.

Only two pages are not included in this guide: PAGE 11 (Budget Summary), which can't be edited by the user in any way, and PAGE 12 (Annexes), which is automatically-generated by the system differently depending on the mandatory annexes required for the specific project proposal.

Should further clarifications be required, please check carefully the FAQ document included in the Annexes to the Funding Application Guidelines.

Disclaimer

This guide aims to support applicants as an additional resource provided for information purposes only: it is not intended to replace the consultation of the Funding Application Guidelines 2026. Neither Tavola Valdese nor the Otto per Mille Office shall be held responsible for the use made of this document by applicants.

Place of project implementation

COUNTRY OF IMPLEMENTATION *

NUMBER OF SITES *

MAIN SITE

☐

☒

Field of project intervention

Field of action *

Save

Next

The category of intervention must be selected in accordance with the objective pursued by the project. If the proposal falls within more than one category, please select the predominant one.

For example, in the case of a women's shelter that intends to combat gender-based violence by supporting the job integration of migrant women who have turned to the listening desk and have taken a path out of the abuse situation, the appropriate category will be Empowerment of women and gender equality. In the case of a project that aims to promote the relational, emotional and cognitive growth of children by providing a psychological support service to fragile minors and their families, the appropriate category will be Protection of children.

Indicate the country of implementation and the number of sites for each country. The number of sites should refer to those places where the project will produce some kind of service or result. For example, for a project implementing workshops in 3 schools, you should enter number 3 in this field, subsequently providing the details of each of the schools involved at p. 6.

PROJECT DETAILS : 3/12 – OVERVIEW

Project summary

Objectives *

Depending on the selected project category, describe the general and specific objective. It is recommended to identify a single general objective and a single specific objective.
For example, in the case of a foreign project in the Education category, the general objective will be “to improve access to primary and secondary education services in Malawi,” while the specific objective will be “to increase equal access to and quality of primary education services for boys and girls in Lilongwe district.”

Max 400 characters

Context and needs
assessment *

Context Assessment: Describe the territorial scope of the project by providing both qualitative and quantitative information on the context, which includes social, economic, political, and cultural factors, strengths and weaknesses, and local resources that could be used for the success of the action.

Needs Assessment: Identify the problem(s) that the project aims to address by providing qualitative and quantitative data and, if necessary for a better understanding, describe the process aimed at identifying the need(s) to be solved.

Max 2000 characters

PROJECT DETAILS : 4/12 – OVERVIEW

Project summary

Project description *

Outline the intervention strategy by illustrating how the problems identified in the "Reference Context" field will be addressed by implementing the proposed activities and how these, in turn, will contribute to achieving the project's specific objective.

Describe the project actions| concisely, but providing for each activity information on the methodologies used, timelines, expected results and the role of any partners. Describe the intervention in its entirety, also briefly including activities for which funding is not applied.

PROJECT DETAILS : 5/12 – OVERVIEW

Project summary

Direct and indirect
Beneficiaries *

Quantify the number of direct and indirect beneficiaries of the project and provide information about them, (gender, age, vulnerabilities, etc.) and clarifying how they are identified.
For example, if a project aims to promote the job placement of young people with disabilities through training courses and internships, the beneficiaries should be described as follows: 16 boys and girls between the ages of 19 and 25 individuated by the local health authority, who will participate in the computer programming courses; and 3 boys and girls selected from the most deserving of the courses, for whom the training internship will be activated. Indirect beneficiaries will be the families of the boys and girls involved for a total of 60 people (estimated average of 4 people per household).

Max 500 characters

Will the beneficiaries participate in some economic way in the proposed activities? *

☐ No☒ Yes

Detail *

If beneficiaries participate in the proposed activities with an economic contribution, the modalities and amount of this contribution must be specified.
- Ex 1. Persons with disabilities who participate in summer stays will be required to pay a contribution of €... or a minimum contribution of €... calculated based on their income / (or) a symbolic contribution of €...
- Ex 2. The beneficiaries of psychotherapy cycles will be charged € for each session.
- Ex 3. The inclusive theatre course will conclude with a show that requires spectators to pay €....

If no economic participation is envisaged, this field will not be opened.

Max 500 characters

Project summary *

Describe the project, including specific objective, number and type of beneficiaries, and planned activities.
For example, referring to the case illustrated above, the summary will be: the project aims to promote the social inclusion of 16 boys and girls with disabilities through the implementation of pathways to self-employment. Specifically, it is planned to implement a 20-hour training course in computer programming and to activate a 200-hour internship at a company in the sector.

Info on Partners:

The Operational Partners are the legal entities who, by implementing specific project activities, incur part of the costs charged to the OPM Grant.

It is not necessary to indicate an operational partner if the lead organisation carries out the intervention independently. The lead organisation is never also an operational partner.

For example, Association X manages a youth centre and wishes to propose to its users an initiative to raise awareness about the environment, which will be arranged into various actions: meetings with experts on climate change and its effects on everyday life, and a theatre workshop with a final performance to take place at Theatre X. In this case, the theatre company, which will actively participate in the design of the workshop content and bear part of the costs charged to the Otto per Mille Grant for this, will be the operational partner, while Theatre X, which will provide the premises, will be another body involved.

Info on Other bodies involved:

The other bodies involved are the legal entities that do not incur the costs attributed to the Otto per Mille grant, but take part in the implementation of the project by:

- A. participating in the design and/or implementation of the project activities, sometimes contributing decisively to the smooth running of the intervention;*
- B. authorising the execution of the activities at their premises or in places under their administration.*

For example, the organisation intends to propose initiatives of integration into the social fabric to beneficiaries belonging to the XXX Local Health Unit's mental health service. In this case, the Local Health Unit office is another body involved that will probably identify, together with the organisation, the list of beneficiaries. Or, if the proposal intends to organise work integration initiatives for former prisoners or prisoners under alternative measures to detention, the competent probation office will necessarily have to be indicated among the other bodies involved. The same applies when offering support for young people suffering from learning disorders in schools: even if the activities do not take place within the school, the institution's involvement is necessary to identify, together with the teachers, the beneficiaries and should therefore be indicated among the other bodies involved. Finally, in the case of a project for the socio-occupational inclusion of young disabled people consisting of artistic and recreational workshops organised by the lead subject and of vocational training services designed and implemented in collaboration with a cooperative, the cooperative will have to be identified as another body involved if the costs of the services offered by the cooperative itself will not be charged to the Otto per Mille grant

Warning: other financial backers are neither operational partners nor other bodies involved and shall be indicated on page 9.

If one of the operational partners indicated on p. 7 makes resources available, select the name of the partner co-financing the initiative

The field "Other financial backers" is dedicated to funding parties other than the partners, the lead organisation and the OPM. These can be, for example, bank foundations, local administrations, AICS etc.
If the lead organisation makes its own resources available, it should not be included among the other financial bakers, since the budget on p. 10 includes a column dedicated to the lead organisation's own funds.

Action 1 - Title: <input type="text"/>

Item	Total	Own funds	Waldensian Church
Overheads *	<input type="text" value="0,00 €"/>	<input type="text" value="0,00 €"/>	<input type="text" value="0,00 €"/>

The budget plan should be divided into actions, when possible, consistent with the planned activities, detailed and expressed in Euros. Before drawing up the budget, it is advisable to consult the Guidelines for Financial Reporting (par. 4, "Eligible expenses").

Under the column "Item", it is necessary to describe in a concise and comprehensible way the cost for which funding is being applied (it is not allowed to identify an expense item with a code or number); for example, doctor, educator, psychologist, airline ticket, food kit, medicine, etc.

Under the column "unit of measure", the quantification method of the cost item must be indicated by selecting it from the dedicated drop-down menu. Please use the option 'other' exclusively for expenses that, by their nature, cannot be expressed using a precise unit of reference.

Under the column "unit cost", indicate the cost of each unit identified, e.g., cost of a food kit, the hourly cost of a social worker, etc.

Under the column "number of units", quantify the number of units for which the total cost is to be calculated. For example, if a salary is requested for three months, insert "hour" in the column "unit of measure" and calculate the number of hours to be inserted in the column "number of units"; if a car is to be rented for one week, insert "day" in the column "unit of measure" and 7 in the column "number of units". Should 'other' be indicated as the unit of measure, insert 1 in the column "number of units".

For example, Cost item: project coordinator; unit of measure: hour; unit cost: 12 euros; number of units: 240; total cost: 2,880 euros. The project coordinator, on a pro-rata basis (e.g., half-time, 4h/day), will be paid 12 euros per hour for 240 hours for a total of 2,880 euros, or 960 euros per month for 3 months

The following are included in the expenditure chapter 1.1 Human Resources: Personnel needed to perform the project activities, such as coordinators, operators, health personnel, psychological personnel, etc. The expenditure sub-chapter Expatriated staff for the exclusive use of those organisations that submit project proposals to be implemented outside the country in which the organisation is established.

In the expenditure chapter 1.2 Travels and subsistence, the costs related to travel should be indicated: train tickets, bus tickets, taxi fares, bus rental, room and board and daily allowance for both project operators and beneficiaries.

In the expense chapter 1.3 Services, all costs for the purchase of services should be indicated: Hire of audio and lighting service for a theatre performance, catering service, creation of a website, i.e., all those services for which a contract will be signed with a third party, be it in the form of a cooperative, company or private entrepreneur.

In the expenditure chapter 1.4 Training, costs for carrying out a specific training must be indicated, if any: Speakers, teaching material, room rental, purchase of stationery, etc.

Under expenditure item 1.5 Equipment and Materials: the equipment and materials to be purchased should be indicated, except for those to be used for construction, renovation or extraordinary maintenance.

In the expenditure chapter 1.6 Acquisition, construction and renovation of immovable properties: it is necessary to indicate the costs for the purchase of a property/land and outbuildings and all the costs related to construction, renovation or extraordinary maintenance, including those for the equipment and materials necessary. In all these cases the estimate must be uploaded on page 12.

Expenditure chapter 1.7 Communication and visibility: indicate the costs incurred to give visibility to the grant awarded. This chapter includes the costs of designing and printing brochures, the costs of organising project start-up or closure events, promotion campaigns on social networks, etc. This

section does not include the costs incurred to create teaching materials, kits for schools, etc., even if they must display the Otto per Mille logo.

Overheads: these costs may not exceed 5% of the amount applied for, and refer to indirect costs, i.e., the running costs of the Remittee such as, for example, rent of the headquarters, utilities, administrative fees, cleaning service.
